

# CALL FOR ABSTRACTS

## for the 76<sup>th</sup> ASEV National Conference

November 2024

On behalf of the American Society for Enology and Viticulture, I am pleased to offer this Call for Abstracts for the 76<sup>th</sup> ASEV National Conference in Monterey, CA USA.

The ASEV National Conference will feature:

- Merit Award Presentation
- Extension Distinction Award Presentation
- Keynote Presentation
- Research Reports (submitted through Call for Abstracts)
- Student Flash Talks
- Regional Wine Reception
- Honorary Research Lecturer
- Supplier Displays

We welcome submitted abstracts based on original research and research updates in all areas of viticulture and enology. Abstracts in the following areas are especially encouraged:

- Impacts of Abiotic Stress on Fruit and Wine Quality
- The Role of Microbiomes in the Grape and Wine Industry
- Vineyard Pest Management
- Understanding and Managing Redox Potential in Winemaking
- Tannin and Color Management
- Environmental and Operational Sustainability of Grape and Wine Production

The Technical Program Committee will review all submitted abstracts. Those accepted for oral or poster presentations will be presented at the conference on June 18-19, 2025, and will appear in the conference program. Abstracts will also be posted on the ASEV website for authors who meet the presentation requirements.

If you are chosen to give a presentation as a student, including flash talk presentations, please refer to the Student Presenters section regarding complimentary registration, an expense stipend, and presentation awards.

Please review the enclosed instructions for preparing your abstract and presentation. The deadline to submit abstracts is February 10, 2025. If you have any questions regarding your submission, please contact our office and we will do our best to answer them in a timely manner.

We look forward to receiving your abstract and look forward to your participation in this year's conference.

Sincerely,

Hans Walter-Peterson  
Technical Program Director

## 2025 Technical Program Committee

Presentations for the 2025 ASEV National Conference in Monterey, California will be organized and scheduled as deemed appropriate by the program organizers with regard to topics, invited keynote speakers, and the abstracts submitted.

## Information for Authors

Both oral and poster presentations are regarded as equally valuable aspects of our technical program. Please refer to the next page for specific presentation requirements. Any abstract submitted for an oral or poster presentation must include a clearly stated research hypothesis. An abstract submitted for research already published will not be considered for this conference. Please refer to the Student Presenters section on the next page, if applicable. Presenter substitutions must be requested in advance for approval by ASEV. Substituted presenters must be listed as an author on the original abstract.

The audience will expect presenters to emphasize the interpretation of their research and address the relevance of the research project. Simply reporting one's data should be kept to a minimum.

All abstracts and presentations at the conference are under the auspices of ASEV. Any promotional materials used in advance or at the conference must acknowledge ASEV sponsorship of the National Conference.

## Presentation Format Preference

Authors may choose to identify their preference for either an oral or a poster presentation. It is the author's responsibility to indicate their preference on the online submission form at the time the abstract is submitted. The Technical Program Committee will determine the final scheduling decisions with respect to other aspects of the technical program and topic themes. Because oral presentation requests far exceed the number of slots available, all authors should be prepared to present a poster if their abstract is not selected for an oral presentation.

## Oral Presentations

Oral presentations will be scheduled in conjunction with topic-based sessions. These will take place at the Portola Hotel and Monterey Conference Center.

Each oral presentation will be scheduled for one presenter for 20 minutes, including allotted time for discussion with the audience. The session moderator will reserve time at the end of each session for a question and answer period with all session presenters available at the podium. A time-keeping system will be used to adhere to the schedule in all oral sessions.

All visual materials must be presented in PowerPoint slides. Wi-Fi will not be available. Oral presenters must use equipment provided by the designated audio visual service provider. Specific guidelines will be provided in the Presentation Guidelines for Oral Technical Sessions, which will be included with letters of acceptance for presentation. Any author who does not provide his or her oral presentation during the designated time and session may not be considered for presentation at future ASEV National Conferences.

The audio portion of all oral presentations will be recorded and offered for sale in an MP3 format.

## Poster Presentations

All posters will be displayed Wednesday, June 18 and Thursday, June 19 at the Portola Hotel and Monterey Conference Center. A reception will be held in the early evening on Wednesday, June 18, as part of the Wednesday/Thursday poster sessions. The author must be present during the wine reception for one hour as assigned to answer questions related to the work.

Industrial posters will include accepted abstracts that reference proprietary information with respect to products or any study that cannot be or has not been confirmed or reproduced by independent entities because it involves proprietary information or materials.

Authors are responsible for setting up and removing their posters during the set-up and dismantle times. Details will be provided in the Guidelines for Poster Presentations.

The poster should contain the following information: title and name(s) of the author(s), introduction, materials and methods, conclusion, and several tables, graphs or diagrams that concisely illustrate the results. Please refer to the sample layout below.

## Flash Talk Presentations

Some students assigned to poster presentations will be given the opportunity to orally present 3-minute Flash Talks about their poster. If you wish to be considered, please mark the "Flash Talk" option on the online abstract submission form. Students requesting an oral presentation are encouraged to also request a flash talk as a poster presentation may be assigned in lieu of an oral presentation. This will provide students assigned to a poster presentation an opportunity to give an oral presentation in a 3-minute Flash Talk format.

Awards will be given to the best enology and viticulture student flash talks. Refer to the Best Student Presentation Awards section on the next page.

## Presentation Cancellation and Non-Participation

Any author who does not attend his or her poster presentation or present orally as assigned may not be considered for presentation at future ASEV National Conferences. Additionally, presenter's abstract will not be included on the [ASEV website](#) or in the Technical Abstracts book. For late cancellations, abstracts will be marked as "cancelled" in the printed Technical Abstract book. If you are not able to participate in your technical session, please contact us promptly.

## Registration

ASEV does not compensate presenters for their participation. All presenters must register and pay registration fees. ASEV extends the member registration fee to all presenters. However, ASEV [membership](#) is encouraged and includes online access to [AJEV](#).

Presenters who are ASEV student members are eligible for complimentary conference registration. Refer to ASEV Membership in the Student Presenters section on the next page for details.

Pre-register in April for the conference and book a hotel if needed when online registration is active. Fees during pre-registration are significantly lower than on-site registration fees.

## Direct Inquiries or Suggestions To:

## Student Presenters

### Best Student Presentation Awards

Students who are currently enrolled on a full-time basis for the 2024-2025 academic year in a degree program related to enology or viticulture are encouraged to present research at this conference. ASEV offers best student presentation awards annually to students selected for outstanding oral, poster, and flash talk presentations. The Best Student Presentation Awards Committee will select one student presenter in enology and one in viticulture from oral, poster, and flash talk presentations. Each award is allocated to one presenting author as designated on the information form.

Students who want to be considered for any Best Student Presentation Award must provide all information requested on the online submission form. Additionally, a student must actually complete his or her oral and/or poster presentation(s) during the scheduled period of time to be considered for these awards. All student award recipients will be announced at the Student-Industry Mixer Thursday evening, June 19, at the Portola Hotel and Monterey Conference Center.

### ASEV Membership & Student Presenter Stipend

Any current full-time student who is not an ASEV member is welcome to join. [Click here to apply online or download a student membership application](#). The membership application and payment must be submitted prior to the student's presentation day. All presenting students who are ASEV student members will be eligible for complimentary registration and a \$200 stipend as an oral or poster presenter.

### Flash Talk Presentations (student poster presenters)

Some students assigned to poster presentations will be given the opportunity to orally present 3-minute Flash Talks about their poster to attendees. If you wish to be considered, please mark the "Flash Talk" option on the online abstract submission form. The Technical Program Committee will assign Flash Talks.

## Publication of Technical Abstracts

Each abstract that is to be included in the Technical Abstracts section of the conference program will be edited for spelling, punctuation, and format. ASEV reserves the right to publish the accepted abstracts in the Technical Abstracts section of the conference program and on the [ASEV website](#).

## American Journal of Enology and Viticulture (AJEV)

Authors are encouraged to submit their manuscripts based on their presentations for publication in AJEV. For information on submitting a complete manuscript for review, refer to our [Submissions Website](#) or email [editor@asev.org](mailto:editor@asev.org). AJEV is a peer-reviewed journal.

### Online Abstract Submission Instructions Deadline: February 10, 2025

Abstracts must be submitted [online](#) on or before February 10, 2025.

Go to <https://member.asev.org/abstract/index.php> to complete the online submission form.

The corresponding and presenting authors will receive a confirmation email following the abstract submission.

## Abstract Preparation Instructions

### SUBMISSION FORMAT

To create your abstract, enter all of the information in the online form (using upper and lower case text).

- Title:** The title should reflect the important aspects of the article as concisely as possible, in no more than 120 characters and spaces. (Titles that exceed this length will be automatically truncated.)
- Byline:** The byline will be automatically created based on the author information that is entered on the online form. The corresponding author will be denoted with an asterisk and the presenting author with boldface type. The full address (including email) of the corresponding author (unabbreviated) will be listed below the authors' names. You will have the option to list authors in the order you want them to appear on your abstract.
- Abstract:** You may type or copy/paste your one-paragraph abstract into the online form (300 words maximum). Please be sure to format your text (italic, bold, special characters, symbols, etc.) Your abstract should state the hypothesis, intent, or purpose of the research, the theoretical or experimental plan used, key findings (without experimental details or data), and major conclusions. Please do not cite references, figures, or tables. Do not state the obvious, such as "results/data will be presented." Abstracts that exceed the length limit will be automatically truncated.
- Abbreviations and Symbols:** Do not use abbreviations in the title or abstract, with the exception of those which are standard for international usage (e.g., HPLC, ATP). The metric system is standard, and SI units should be used (other units may be placed in parenthesis after the SI). Symbols and abbreviations should conform to those used by the AJEV; a list is in the [Guide for Authors](#).
- Additional Information:** You may upload additional information, such as a description of your research and pertinent data, including statistics, graphs, and charts to assist the abstract reviewers in evaluating the abstract. In some cases, additional information may be requested.

*(Note: The complete abstract will be automatically created based on the information entered in the online abstract submission form.)*

### Sample Abstract

Format for ASEV National Conference Abstracts

**Pat Vine** and Drew A. Glass\*

\*American Society for Enology and Viticulture  
P.O. Box 1855, Davis, CA 95617, USA  
[glass@asev.org](mailto:glass@asev.org)].

For a uniform appearance, it is important that the title be upper and lower case, as illustrated above, and that the name(s) of the author(s) for the byline be listed with first (given) name(s) first. The presenting author's name will be in bold face and an asterisk will denote the corresponding author. The full address (including email) of the corresponding author (unabbreviated) will follow the authors' names. The abstract text will be truncated after the 300 word maximum.

Acknowledgment of funding sources (list all by name).
